

# Stratum

GypSorb Stratum panels are high density gypsum panels with a variety of perforation patterns and shapes outlined with non-perforated gypsum margins. Installation is made easy using a 4 sided taper design.

## PERFORMANCE

-  A 2-sl, d0 (non-flammable) according to DIN EN 13501
-  Maximum Relative Humidity: 90%
-  Recycled Content: 96%
-  NRC: Up to .75

Frequency (Hz)	65mm (~3")	65mm (~3") with 50mm (~2") Mineral Wool	200mm (~8")	200mm (~8") with 50mm (~2") Mineral Wool
125	0.15	0.40	0.45	0.55
250	0.30	0.65	0.60	0.80
500	0.60	0.75	0.70	0.85
1,000	0.80	0.70	0.65	0.70
2,000	0.60	0.65	0.60	0.70
4,000	0.40	0.50	0.45	0.60

- Cavity Depth = 65mm (~3")
- Cavity Depth = 65mm (~3") with 50mm (~2") Mineral Wool
- Cavity Depth = 200mm (~8")
- Cavity Depth = 200mm (~8") with 50mm (~2") Mineral Wool

Factory tapers on all 4 edges of GypSorb Stratum panels. Joints are taped and filled with standard joint tape and compound.

Not to Scale

## CHARACTERISTICS

Perforation type:	12mm x 12mm (30mm o.c.)
Board Thickness:	1/2" (12.5mm)
Non-woven Fabric Backing:	Gray
Finish:	Unfinished paper face
Open Area:	13.0%
Weight:	1.88 lbs/s.f. MAX

## AVAILABLE BOARD SIZES

900mm x 2700mm (~35.43" x 106.30")
